| Author Name | Ms. Faiza Kashif (IELTS Trainer), International Teachers Academy, Lahore Ms. Saadia Syed, Lecturer, Punjab TEVTA |
| Course Title | Certificate in IELTS (3 Months) |
| Objectives and Expectations | Employable skills and hands-on practice in Certificate in IELTS (3 Months) |
| | This is a special course designed to address unemployment in the youth. The course aims to achieve the above objective through practical training delivery by a team of dedicated professionals having rich market/work experience. It is primarily aimed at equipping the trainees to perform commercially in a market space in independent capacity or as a member of a team. |
| | The course therefore is designed to impart not only technical skills but also soft skills (i.e. interpersonal/communication skills; personal grooming of the trainees etc. Main Expectations: |
| | This course thus clearly goes beyond the domain of the traditional training practices in vogue and underscores an expectation that a market-centric approach will be adopted as the main driving force while delivering it. The instructors should therefore be experienced enough to be able to identify the training needs for the possible market roles available out there. Moreover, they should also know the strengths and weaknesses of each trainee to prepare them for such market roles during/after the training. Language Proficiency: |
| | Develop and enhance participants' proficiency in English, focusing on grammar, vocabulary, pronunciation, and overall language skills. Improve the ability to express ideas clearly and coherently in both written and spoken English. Exam Preparation (IELTS): |
| | Equip students with the necessary skills to excel in each section of the exams, including listening, reading, writing, and speaking. Provide targeted instruction and practice specifically tailored to the International English Language Testing System (IELTS) to ensure participants are well-prepared for the exam. |
| | Communication Skills: Foster effective communication skills, both written and verbal, in various contexts to improve participants' ability to express ideas clearly and coherently. Enhance cultural awareness and sensitivity to enable participants to |
| | communicate effectively in diverse English-speaking environments. Foster an understanding of cultural nuances in English communication to facilitate effective interaction in diverse professional settings. Develop cross-cultural communication skills to prepare students for global workplace environments. |
| | Employability Skills: Equip participants with language skills essential for professional success, including writing resumes, cover letters, and participating in |

job interviews.

- Cultivate language skills specifically tailored for professional and workplace communication.
- Enhance skills such effective writing, business as email correspondence, and professional presentation in English.
- Specially designed practical tasks to be performed by the trainees have i. been included in the Annexure-I to this document. The record of all tasks performed individually or in groups must be preserved by the management of the training Institute clearly labeling name, trade, session, etc. so that these are ready to be physically inspected/verified through monitoring visits from time to time. The weekly distribution of tasks has also been indicated in the weekly lesson plan given in this document.
- ii. To materialize the main expectations, a special module on **Work Ethics** has been included in the latter part of this course (3rd month). Moreover, the trainees would also be encouraged to venture into self-employment and exposed to the main requirements in this regard. expected that a sense of civic duties/roles and responsibilities will also be inculcated in the trainees to make them responsible citizens of the country.

To maintain interest and motivation of the trainees throughout the course, modern techniques such as:

- **Motivational Lectures**
- Success Stories

These techniques would be employed as an additional training tool wherever possible (these are explained in the subsequent section on Training Methodology).

Lastly, evaluation of the competencies acquired by the trainees will be done objectively at various stages of the training and a proper record of the same will be maintained. Suffice to say that for such evaluations, practical tasks would be designed by the training providers to gauge the problem-solving abilities of the trainees.

Motivational Lectures (i)

The proposed methodology for the training under reference employs motivation as a tool. Hence besides the purely technical content, a trainer is required to include elements of motivation in his/her lecture. To inspire the trainees to utilize the training opportunity to the full and strive towards professional excellence. Motivational lectures may also include general topics such as the importance of moral values and civic role & responsibilities as a Pakistani. A motivational lecture should be delivered with enough zeal to produce a deep impact on the trainees. It may comprise of the following:

- Clear Purpose to convey the message to trainees effectively.
- Personal Story to quote as an example to follow.
- Trainees fit so that the situation is actionable by trainees and not represent a just idealism.
- Ending Points to persuade the trainees on changing themselves.

A good motivational lecture should help drive creativity, curiosity, and spark the desire needed for trainees to want to learn more.

The impact of a successful motivational strategy is amongst others commonly visible in increased class participation ratios. It increases the trainees'

willingness to be engaged on the practical tasks for a longer time without boredom and loss of interest because they can see in their mind's eye where their hard work would take them in short (1-3 years); medium (3 -10 years) and long term (more than 10 years).

As this tool is expected that the training providers would make arrangements for regular well planned motivational lectures as part of a coordinated strategy interspersed throughout the training period as suggested in the weekly lesson plans in this document.

Course-related motivational lectures online link is available in Annexure-II.

(ii) Success Stories

Another effective way of motivating the trainees is using Success Stories. Its inclusion in the weekly lesson plan at regular intervals has been recommended till the end of the training.

A success story may be disseminated orally, through a presentation, or using a video/documentary of someone that has risen to fortune, acclaim, or brilliant achievement. A success story shows how a person achieved his goal through hard work, dedication, and devotion. An inspiring success story contains compelling and significant facts articulated clearly and easily comprehendible words. Moreover, it is helpful if it is assumed that the reader/listener knows nothing of what is being revealed. The optimum impact is created when the story is revealed in the form of:-

- Directly in person (At least 2-3 cases must be arranged by the training institute)
- Through an audio/ videotaped message (2-3 high-quality videos must be arranged by the training institute)

It is expected that the training provider would collect relevant high-quality success stories for inclusion in the training as suggested in the weekly lesson plan given in this document.

The suggestive structure and sequence of a sample success story and its various shapes can be seen in **Annexure III**.
